This Brochure details the Lean 5S/6S certified course for online, in public and 'in house' training formats. The full curriculum is available on request

Zenith Lean Ltd
29/08/2014

5S/6S LEAN MODULAR TRAINING COURSE

PRICELIST:

E-LEARNING (ONLINE), 1 MONTH ACCESS £120+VAT (£136 INC VAT)

IN PUBLIC, ½ DAY, £350 +VAT (£420 INC VAT)

IN HOUSE, ½ DAY, £350 + VAT FOR 4 DELEGATES, THEN 40% DISCOUNT FOR ADDITIONAL DELEGATES

In this module we will take an in-depth look at 5S and 6S, establish the difference between them, and how to carry out 5S and 6S audits to establish a benchmark that will set the pace for future efficiency.

We will challenge you to develop what we call "5S/6S eyes". This allows us to see where the problems and issues are. We will steer you through the module with examples and short exercises to develop your all seeing 5S and 6S ability.

The Lean approach of 5S / 6S is a methodology for people and businesses to use in order to develop their working environment whatever the business sector they are working in.

WHY CHOOSE US?

1. We use the full, undiluted Lean 5S/6S Curriculum
2. Our exams are secured to the ISO 13053 Standard
3. If you are not satisfied with our SCORM accredited online training, we will give you your money back plus 10% extra - guaranteed!

OUR COURSE

Zeniths 5S /6S online training has been uniquely developed to guide the student through the various stages using our bespoke Learning Management System (LMS). Most other companies will only offer the 5S training but we believe that a further

understanding to include the 6th 'S' is very important. This is the recognition of Safety and how this can affect business strategy (Gulf of Mexico Oil Spill Disaster)

Our 5S / 6S course will give you an insight to the various techniques that can be used including Workplace set-up (Productivity Cell principles), Auditing, Identification of WASTE

together with Visual and Display Management. Our course offers free materials that include various templates, the Zenith Lean step by step approach to 5S/6S, exercises and simulations that you will be able to access and download through our bespoke Learning management System. Our templates can be re-branded for you to use when carrying out your own 5S/6S programme to allow to have a positive immediate impact on your workplace environment, whether it is an office or service based function or manufacturing.

5S /6S COURSE CONTENT AND STUDENT OBJECTIVES
