IN PUBLIC, ½ DAY, £350 +VAT (£420 INC VAT)

IN HOUSE, ½ DAY, £350 + VAT FOR 4 DELEGATES, THEN 40% DISCOUNT FOR ADDITIONAL DELEGATES

Kanban is at its heart quite simple. It is essentially a workflow-management technique. The central idea is that team members create their deliverables only as they are needed by the team members further along the process flow.

Flow is the goal is to create a smooth process in which each step, adding VALUE, gracefully hands off work to the next step without backlogs or bottlenecks.

Poka Yoke is a Japanese term that means "fail-safing" or "mistake-proofing". A poka-yoke is any mechanism in a process that helps a person or system identify a mistake or error. Its purpose is to eliminate defects by preventing, correcting, or drawing attention to human or system errors as they occur.

Our Kanban modular course forms part of the Lean Six Sigma [Green Belt course](#), the [Black Belt course](#) as well as the [Lean Foundation](#) and [Lean Practitioners course](#)
